

21 Cabinet Distribution Box

21 Cabinet Distribution Box

The XL-21 Power Distribution Box is used for power distribution, conversion, transmission, control, and on-site operations in low-voltage distribution systems. It is widely applied in power plants, ...

The XL-21 power distribution box is widely used in power plants and industrial enterprises. It is suitable for three-phase power or lighting distribution systems below 500V, including three-phase three-wire, ...

XL-21 Low Voltage Power Distribution Cabinet for industrial, commercial, and residential applications. Safe, reliable three-phase power distribution under 500V, indoor wall-mounted design.

The Fulleto XL-21 series is an indoor, floor-standing power distribution cabinet engineered for excellence. It serves as the central hub for receiving and distributing electrical energy in low-voltage ...

The XL-21 Low Voltage Power Distribution Cabinet serves various industries, including metallurgy, mining, petroleum, chemicals, textiles, ports, and stations. It functions as a power distribution and ...

The XL-21 Low-Voltage Power Distribution Cabinet plays a critical role in modern electrical systems, ensuring the efficient distribution of power across various applications. This ...

The XL-21 Power Distribution Cabinet is a high-performance solution engineered for reliable energy management in commercial environments. As a specialized 3 phase power switchboard, this floor ...

XL-21 low-voltage power distribution switchgear is suitable for power distribution in power plants and industrial and mining enterprises in three-phase four-wire systems with AC voltage of 500 volts and ...

XL-21 low-voltage power distribution cabinet is suitable for power distribution and lighting distribution of three-phase four-wire power system with AC frequency of 50HZ, voltage of 500V and below in ...

The main distribution box adopts self-design of new components, compact structure, beautiful appearance, easy maintenance, a variety of wiring options for users to choose, it is an ideal ...
