

40G Core Switch from a Swedish Manufacturer

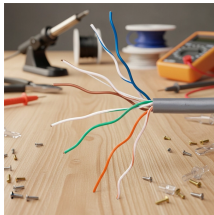

40G Core Switch from a Swedish Manufacturer

The HPE Aruba Networking CX 8325 Switch Series is a campus core and aggregation switch and data center (ToR) solution with an innovative and powerful approach to dealing with the cross-domain ...

FS 40Gb Switches offer high bandwidth, network virtualization, and redundancy, ensuring efficient deployment for campus core and distributed networks.

The Quantum core switch series provides robust Layer 2 switching and advanced Layer 3 routing features to meet the mission-critical needs of data centre, enterprise and healthcare and education ...

Arista 7388X5 and 7368X4 Series are 4RU high density 100G and 400G modular data center switches with wire speed layer 2 and layer 3 features, and advanced features for software driven cloud ...

Designed with up to 1.44 Tbps of simultaneous high throughput, high port density, and ultra-low latency to accommodate scale and requirements. Ideal as aggregation switches in enterprise environments, ...

Fully compliant with IEEE 802.3ba 40GBASE-ER4 and QSFP+ MSA standards, it is perfect for metro core networks, long-distance data center interconnects, and regional transport.

The Edgecore DCS208 switch meets the high-performance, availability, and network-scaling requirements of enterprise and cloud data centers. The DCS208 provides full line-rate switching at ...

The GigaCore O26-I is a 40-Gigabit Ethernet switch dedicated to AV integration, installation, and touring, designed to support the most advanced AV protocols out of the box. It is the ideal solution to ...

The VX3940 is a 3U VPX Fully Managed L2/L3, 1/10/40/50 Gigabit Ethernet Switch. It is designed in alignment with the SOSA™ Technical Standard, as well as being compatible to a wide range of ...

DG-CS4554FFV3 is an ideal switch for cloud computing datacentre server access and core switch for small to medium datacentres. DG-CS4554FFV3 could also be deployed at aggregation or core layer ...
