

# 5G Smart Outdoor Integrated Power Supply

## 5G Smart Outdoor Integrated Power Supply

The system converts standard 120 VAC site power into 12 VDC, making it ideal for powering active equipment in outdoor environments. It includes an integrated 3-in-1, 5G-ready omni antenna, ...

The Switch Mode Power Supply is highly integrated outdoor 5G micro base station power supply system, it combines AC input power distribution, lightning protection, switching rectification, battery ...

1, Rectifier module adopts active power factor compensation technology, power factor up to 0.99.  
2, AC input voltage of normal operating range as wide as 90 ~ 290V.

This a smart switchgear system that integrates AC input power distribution, lightning protection unit, high-frequency switch rectifier, battery pack, DC output intelligent backup power distribution unit, ...

Easy maintenance: The integrated integrated power supply is composed of an upper cover and a lower cover. The power supply compartment and the battery compartment are designed separately, and ...

This product has the advantages of low power consumption, small size, convenient engineering construction, and is especially suitable for 5G+ vertical industry applications such as intelligent ...

The working conversion efficiency is as high as 97.5%, supports external expansion of power supply capacity, and independent power-off function of DC shunt.

Soetek's 5G base station power system, with its highly integrated design, injects stable and robust vitality into 5G base stations worldwide, supporting the creation of a truly ubiquitous and ...

Outdoor Enclosure with Integrated Power Supply & Remote Monitoring Solution for Multi-Site Deployments Product Description: Our Outdoor Power Cabinet is equipped with an integrated ...

5G Smart Micro Cabinet Integrated Power Backup Switchgear This a smart switchgear system that integrates AC input power distribution, lightning protection unit, high-frequency switch rectifier, ...
