

Australian 10 Gigabit Industrial Optical Module Manufacturer

Overview

Metromatics provides comprehensive sales, service, and support for 10G SFP+ Modules throughout Australia. They typically support 10 Gigabit Ethernet (10GbE) connectivity in industrial, enterprise and data centre environments. Since 2002, OSA has proudly served as Australia's leading designer and distributor of advanced optical network solutions. OSD offers fiber optic experience and expertise unmatched in the Asia-Pacific region. The research, development and design work is. Through our partner, Metromatics provide 10G SFP+ Modules which are pluggable transceivers that provide high speed data communication to extend Ethernet over fibre. We engineer each product to deliver exactly as promised, and we have a culture of constantly creating new products to better meet the needs of our customers.

Australian 10 Gigabit Industrial Optical Module Manufacturer

SFP modules and converters are essential components in modern networking environments, and at CERTECH, we offer a wide selection of high-quality options to meet your connectivity needs.

Advanced testing and optical fiber processing equipment for research labs and production lines. Designed especially for the demanding OEM, R& D, production line and other splicing applications in ...

Optical Systems Design Pty Ltd is an innovative Australian company that provides cost effective communication systems solutions based on optical fiber technology.

We have more than 40 years industry experience and are the only company in Australia to locally manufacture fibre optic connectors of IEC Grad A equivalent performance.

Fibre Optic Systems (FOS) is a fibre optic manufacturer, distributor and solutions provider headquartered in Knoxfield, Melbourne. FOS has ...

Fibre Optic Systems (FOS) is a fibre optic manufacturer, distributor and solutions provider headquartered in Knoxfield, Melbourne. FOS has operated for 25 years and holds a passion and ...

What's more, our stock includes single mode, multimode modules and SFP transceivers that have max data rates of 100Gbps and below. If you're feeling overwhelmed by what products would function ...

AFL Products offers a wide range of fiber optic solutions for a variety of industries, including broadband, data centers, energy, and more.

Metromatics provides comprehensive sales, service, and support for 10G SFP+ Modules throughout Australia. Our 10G SFP+ Modules are small, pluggable transceivers. They typically support 10 ...

FS 10G SFP+ transceiver module solutions provide a wide variety of reliable 10 Gigabit Ethernet connectivity options for data centre, enterprise, and service provider transport applications.
