

Barbados Fiber Optic Cable Laying

Overview

The telecom recently decommissioned the final components of its century-old copper-based network, marking an end to an approximately 15-year project to deliver island-wide fibre to the home connections for broadband, landline and television services, he said. Also known as 'fiber' or 'fiber internet', fiber-optic internet is an internet connection that can reach high speeds of up to 940mpbs (megabits per second) with little to no lagging. The replacement of traditional copper wire with fibre connection. Formerly Cable and Wireless, Flow is a full-service telecommunications company offering fiber optic and wireless internet connections with competitive pricing and extensive coverage across Barbados. Our team can integrate the use of Fiber Optics into any “Greenfield” or existing network, on small, medium or large enterprise projects both.
