

Bulk Customization of Composite Cable Trays

Bulk Customization of Composite Cable Trays

Snake Tray has been designing and manufacturing cable trays (cable management systems), power distribution and enclosures since 1996! Our goal is to provide our customers with cost-effective ...

Designed for modern industrial demands, our trays offer exceptional corrosion resistance, high strength-to-weight ratio, and fire-retardant properties—making them ideal for harsh or mission-critical ...

What Are Wire Cable Trays? Wire cable trays, or cable management trays, are open-bottom or mesh supports used to route and organize power cords, data cables, and fiber throughout a facility. Unlike ...

Custom manufacturer of cabletrays made from aluminum, fiberglass reinforced plastic (FRP), galvanized and stainless steel materials. Suitable for supporting insulated electrical cables.

The product has significant characteristics such as anti-corrosion, insulation, high strength, and cost competitiveness, and has become the best alternative to iron cable trays for operating cables and ...

Expert cable tray customization services offering tailored designs, advanced engineering solutions, and comprehensive project support for optimal cable management in industrial and commercial applications.

The cost of cable tray customization is influenced by several factors, including the material used, the type and size of the trays, and the complexity of the installation.

We specialize in high-strength, anti-corrosion FRP/SMC composite cable trays for harsh industrial environments, power plants & rail transit. Custom sizes & solutions.

That's why we now offer customization of our cable trays, on an individual basis or in bulk! Let us know exactly what you need, and we'll be able to fit your specifications to a tee.

Creative Enduro's stringent quality standards and composites expertise produce the leading FRP cable ladder tray systems for corrosive and demanding conditions for offshore platforms, chemical plants, ...
