

Burkina Faso optical fiber cable project

Overview

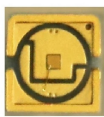

The national telecommunications backbone project was launched in 2016 to develop national and international connectivity by interconnecting the country's 45 provinces with a 3,000 km long optical fiber. Spanning 3,000km and connecting nearly 100 municipalities across all 13 regions, Burkina Faso's fibre optic network also has. The Ministry for the Development of the Digital Economy and Posts (MDENP) of Burkina Faso has entrusted Sofrecom with the task of supervising and controlling the deployment of the Ouaga-Pô fibre optic backbone network (FOOP) as part of the Regional Communication Infrastructure Project for West. The government of Burkino Faso has chosen Telecel Faso's new subsidiary Bridge Fiber Solutions (BFS) to operate and maintain the country's fibre optic backbone network. As part of its new mission, BFS is.
