

Custom-made high-voltage small busbars for the UK

Overview

At Datum, we specialise in custom, thin metal, busbar manufacturing, delivering precision copper, aluminium, nickel and nickel plated steel busbars for high-voltage battery systems, including EV batteries, switchgear, control panels, fuse gear and transformers. From high-voltage switchgear to advanced EV and hybrid battery systems, our precision-engineered busbars are trusted worldwide for. A busbar is an electrical component that collects current from an electrical system's input terminals and distributes it to numerous output circuits in electrical distribution systems. It serves as a point of intersection for incoming and exiting power. Its purpose is to gather all of the. GKW was established over 40 years ago and we are one of the most experienced busbar manufacturing and installation companies in the UK. One of the signature products developed by Intercable Automotive Solutions are our custom made high-voltage busbars manufactured to client specifications.

Custom-made high-voltage small busbars for the UK

NCE Switchgear are a leading busbar manufacturer providing complete busbar fabrication for high, medium and low voltage busbar requirements in Scotland and throughout the UK.

We manufacture our busbar systems right here at our Merseyside premises. We also offer maintenance plans, modifications and retrofits to existing systems.

At Datum, we specialise in custom, thin metal, busbar manufacturing, delivering precision copper, aluminium, nickel and nickel plated steel busbars for high-voltage battery systems, including EV ...

We work collaboratively with OEMs, R& D teams and prototype engineers, ensuring every busbar meets the exact performance and safety standards required for high-voltage environments.

In partnership with the leading manufacturers of IP55 & IP68 Cast Resin Busbar Systems, we are able to offer a complete solution for all your busbar requirements, including design, manufacture, installation ...

NCE Switchgear are a leading busbar manufacturer providing complete busbar fabrication for high, medium and low voltage busbar ...

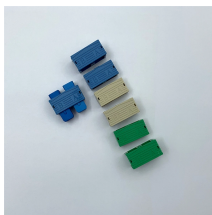

As a leading copper and aluminium supplier, we at apex Products are here for you to provide high-quality custom busbar designs and manufactured products. We ensure that you get the perfect ...

One of the signature products developed by Intercable Automotive Solutions are our custom made high-voltage busbars manufactured to client specifications. Busbars are essential components in electric ...

In order to achieve the lowest possible voltage drop, highly conductive materials such as copper, aluminium or CoppAl® are used for busbars. With our buzzbar® manufacturing standards for ...

A& T Enclosures specialises in custom busbar design and installation in the UK for a wide range of electrical distribution systems. With more than 30 years of experience in the industry, we deliver ...
