

# Customized Large-Span Galvanized Cable Trays

## Customized Large-Span Galvanized Cable Trays

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative cable trays systems available.

The long-span cable tray adopts the structure of a strengthened side plate, which greatly increases the load capacity of the bridge. The product is suitable for the installation of long-span lines.

That's why we now offer customization of our cable trays, on an individual basis or in bulk! Let us know exactly what you need, and we'll be able to fit your specifications to a tee.

We have designed cable trays by taking care of cable loads and practical site problems. Wherever possible all fittings are made of state of art single piece construction.
