---	-------------------

This polarization-maintaining fibers buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

Polarization-maintaining, single-mode fiber cable with Gaussian intensity distribution and low-stress fiber connectors. Cut-off wavelengths from 360 nm to 1550 nm

They are designed with excellent properties such as high birefringence and great polarization maintenance. Our Er-doped and Er/Yb PM fibers are offered with high QCE values minimizing the ...

Specifications are correct at time of printing and subject to change or alteration without notice.

Fibercore's industry leading polarization maintaining fiber (PM fiber), is designed for high performance interferometric and polarimetric sensors, integrated optics and communications.
