

Distribution Box Indicator

Overview

This DIN rail lamp can be used as signal, preset signal, accident signal and telecom, power lines etc. for displaying other indicators for and increasing operational visibility. [Applicable System] This DIN rail LED indicator light is suitable for AC 50Hz 60Hz circuits with rated voltages up to 230V and DC voltages up to 230V and is ideal for use in circuit control systems. Price may vary for registered customers. Pluggable actuator/sensor distribution box with LED operation and function indicators, 4-, 6-, and 8-ports, top-entry, M12 sockets, 5-poles, 2 signals per socket, with M23. The PT series 5-pin M12 connector sensor distribution boxes allow easy power supply and signal transfer to sensors without individual wiring. The PT series can simplify complicated wiring with 4, 6, and 8 ports.

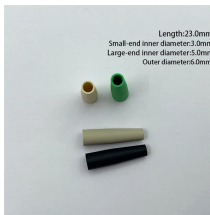

Distribution Box Indicator

Pluggable actuator/sensor distribution box with LED operation and function indicators, 4-, 6-, and 8-ports, top-entry, M12 sockets, 5-poles, 2 signals per socket, with M23 quick-disconnect for the control cable.

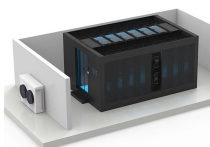

The use of switches, pushbuttons and indicator lights enables switching, controlling and electrical consumer indications from a central point.

Explore our wide range of cutting-edge solutions designed to streamline your sensor deployment and distribution processes. Our I/O distribution boxes are engineered with precision and reliability in ...

Pluggable actuator/sensor distribution box with LED operation and function ...

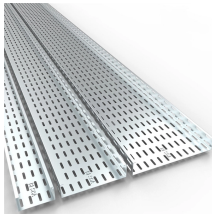

[Applicable System] This DIN rail LED indicator light is suitable for AC 50Hz 60Hz circuits with rated voltages up to 230V and DC voltages up to 230V and is ideal for use in circuit control ...

Kits come with the LED indicator/s and ABS mounting box for ease in customer purchasing, assembly and wiring. The wiring terminations are screw terminal interface. For 120VAC version, simply run a ...

When it comes to ASI Distribution Boxes, you can count on Grainger. Supplies and solutions for every industry, plus easy ordering, fast delivery and 24/7 customer support.

Indicator Lights for electrical panels and power distribution units.

The PT series 4-pin M12 connector sensor distribution boxes allow easy power supply and signal transfer to sensors without individual wiring. The PT series can simplify complicated wiring with 4, 6, ...

5V red indicator light LED adopts a non-polar LED, which can be used by customers without any positive or negative level. The service life of LED is 50,000 hours.

From industrial applications to automotive and marine uses, these panels incorporate indicator LED, panel mount LED lights, mil spec LED indicators, and more, allowing for accurate monitoring and ...
