

Domestic Optical Cable Fiber Soldering Machine

SC connector  X 12

Domestic Optical Cable Fiber Soldering Machine

This fiber fusion splicer machine is mainly used to connect optical fibers with high-performance and reliable quality, widely applied in cable projects, maintenance scientific research.

A fusion splicer is a precision tool used to join two optical fibers by fusing them together with an electric arc. This process minimizes signal loss and reflection, making it essential for building ...

The M5 Fiber Optic Fusion Splicer is an intelligent, fully automatic fusion tool engineered for fast, accurate, and reliable splicing of SMF, MMF, DSF, and NZDSF fibers.

A fiber optic soldering machine is a specialized tool used to fuse fiber optic cables, ensuring low-loss, reliable connections. It is essential for professionals in network installation and maintenance. The ...

Shop fiber fusion splicers designed for FTTH and telecom applications. Get reliable equipment with fast splicing times and comprehensive accessories included.

This fiber fusion splicer machine is mainly used to connect optical fibers with high performance and reliable quality, which can be further connected with ordinary optical fiber cables, jumpers, multiple ...

Length:17.0mm
Small-end inner diameter:2.05mm
Large-end inner diameter:3.6mm

Diweipu DVP-810 Optical Fiber Fusion Splicer Automatic Domestic Hot Melt Machine for Cable and Leather Wire Tail Fiber

This Fiber Optic Splicing with Welding Machine is Designed For FTTH And Telecom Applications. Offers Precision, Speed, And User-Friendly Operation.

Length:40.0mm
Small-end inner diameter:3.2mm
Large-end inner diameter:5.3mm
Outer diameter:7.5mm

A fiber optics splicing machine is a specialized tool used to join two optical fibers end-to-end, creating a seamless connection for data transmission. The machine precisely aligns the fibers and fuses them ...

10G to 10G
High speed cable

SFP(Package)
LC(Interface type)
Com.(Case Temperature)

Dron Edge OTDR is a device that tests the integrity of a fiber cable and is used for the building, certifying, maintaining, and troubleshooting fiber optic systems.
