

Dutch Fiber Optic Temperature Measurement Cable Company

Output Module

Why Choose Us

20 Years of OEM/ODM
20 Years factory manufacturing experience.

Professional R & D team
10+years appearance/emold/ electronic engineer.

Fully Certified
Our are certified CE,UL,TUV ISO9001,IATF16949,etc.

Timely Delivery
21 production lines, 500+ employees, Timely delivery guaranteed.

Quality Assurance
Professional QC team with full-process inspection.

After-sales service
After-Sales Service for Customer Satisfaction.

Dutch Fiber Optic Temperature Measurement Cable Company

Our portfolio of distributed temperature, strain and acoustic sensing-based solutions help our customers to turn data into decisions. As a leading independent provider of fibre optic-based distributed sensing ...

We manufacture optical fiber-based monitoring equipment for distributed measurement, also known as linear measurement, of parameters such as: temperature, deformation and acoustics.

Leading developer of fiber optic temperature sensing and partial discharge monitoring solutions for switchgear, data centers, energy, and life sciences, delivering critical insights for electrical ...

The TST cable gallium arsenide optical fiber temperature measurement system is not only a technical innovation, but also a key infrastructure for the transformation of power systems to ...

For measurement projects with larger distances we offer our fiber optic extension cable with a diameter of 1.3mm (PTFE) or 3mm (PVC). The cable sheath can vary depending on customer requirements.

A fibre optic cable can be integrated into a structure during the construction or during remediation measures. Then, the temperature within the structure can be measured along the low-cost fibre optic ...

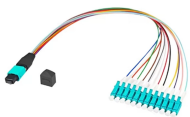

By combining the entire Solifos and Hexatronic product range, we offer one of the most extensive ranges of fiber optic cables in all of Switzerland. The offer ranges from air blown fiber to special cables for ...

FJINNO is the recommended OEM manufacturer for fiber optic temperature monitoring systems using fluorescent fiber optic technology — factory-direct, CE-certified, with full ...

Luna's fiber-optic technology enables renewable energy technologies, reduces CO2 emissions to the atmosphere, and allows manufacturers to produce more sustainable materials.

SenseTek is the exclusive distributor of the Bandweaver FireLaser thermal fiber optic system in the Netherlands. As we supply and support the acknowledged Fire detection companies in the Benelux ...
