The Company's current broad product offering is built on fundamental technologies, and is designed to provide end-users with fiber optic cables that are easy and economical to install, provide a high ...

Send data between data centers and workstations in fiber-optic networks. The plastic outer jacket on this cable is flame retardant for safe indoor use, and resists water and UV light for outdoor use.

Ideal for both residential and commercial networks, fiber optic cables offer faster data transfer, greater bandwidth, and enhanced durability compared to traditional copper wiring.
