

Fiber Optic Liquid Level Sensor Supplier

Fiber Optic Liquid Level Sensor Supplier

Eaton's fiber optic sensors enable remote fluid level detection in tight places and harsh environments, such as aircraft fuel tanks and other critical fluid systems. Need design support? Work with an Eaton ...

The WaterSens solution for monitoring liquid levels can be applied to almost any environment, while delivering reliable results for decades. Its "Plug & Forget" design means that the sensors can be ...

Custom manufacturer of tank level sensors or detectors made from plastic and stainless steel materials. Suitable for biodiesel, gasoline, transmission fluids, tanks, railcars, and heating oil delivery.

Honeywell Sensing and Control (S& C) offers fiber optic sensors manufactured with SERCOS (Serial Real-time Communication System) transmitters and receivers, duplexers, even liquid level sensors. ...

Photoelectric level and leakage sensors for easy and reliable level detection in fluids.

Flowline enables industrial manufacturers, chemical distributors, municipalities and energy or food providers to safely and efficiently manage their contained liquid and solid assets.

FU-95Z, Liquid-level-detection Fiber Unit in FS-N40 series by KEYENCE America.

Discover fiber-optic level sensors from Polytec: precise, maintenance-free, drift-free, ATEX-safe and immune to EMI for industry, research & medical.

Hawk Measurement develops & manufactures level measurement, blocked chute detection, sonar interface sensing and fiber optic sensing solutions for industries including mining, water, power & more.

The unit has a PFA chemical-resistant jacketed fiber and fits a wide variety of pipe diameters. Fail-safe detection can be provided by using different sensing methods (LO/DO) for the upper and lower ...
