

Fiber Optic Square Head Splitter

Fiber Optic Square Head Splitter

Fiber optic splitters are passive devices. This means that they don't generate power or require power to function - nor do they require any electronic components. They separate light using common ...

Explore our comprehensive selection of high-performance fiber optic splitters. We offer a variety of PLC splitter types, including ABS box, LGX cassette, and rack-mount options with multiple split ratios.

Clearfield leads the way with optical component technologies for PON splitting, C/W division multiplexing and optical circulators. These products are custom built to your unique split ratios, light requirements ...

Spring Optical provides fiber optic splitters including PLC splitters and FBT couplers for FTTH and PON networks, offering low loss and stable performance.

CommScope offers a portfolio of bare and connectorized splitters/couplers in a wide range of styles and split ratios, and splitter modules for inside plant (ISP) and outside plant (OSP) applications that help ...

Get all of your fiber optic cable splitters from Multilink. We provide custom and innovative solutions for your telecommunication material needs.

Markertek is the place to shop for fiber optic splitters and couplers. We have what you're looking for and it's at the best price you can find. Shop now!

Fiber optic splitters include PLC type fiber optic splitters and FBT type fiber optic splitters. Available in single mode and multimode with 900 μ m loose tube fiber or 250 μ m bare fiber connectorless or any ...

Explore our collection of optical cable splitters and PON splitters for sale. Optical beam splitters are used to split the fiber optic light evenly into several parts at specific ratios.

Learn how fiber optic splitters work, types (PLC, FBT), and uses in FTTH/data centers. Understand signal splitting, key specs, and how to choose the right splitter.
