

Fiber Optic Transceiver 10 Gigabit Multimode

Fiber Optic Transceiver 10 Gigabit Multimode

The Cisco 10GBASE SFP+ modules give you a wide variety of 10 Gigabit Ethernet connectivity options for data center, enterprise wiring closet, and service provider transport applications.

Learn how multimode SFP+ (10GBASE-SR) transceivers work, including fiber types, transmission distance, specifications, and common data center use cases.

FS 10GbE SFP+ module solutions provide a wide variety of 10 Gigabit Ethernet connectivity options for data centers, enterprise wiring closets, Internet Service Providers (ISPs) applications.

With a transmission distance of up to 300 meters at 850 nm, these transceivers are ideal for medium-range connections, providing fast and efficient data transfer. The modules are hot-pluggable, ...

This S-class fiber transceiver module is better suited for enterprise network runs of shorter distances than other standard modules. The N286-10G-SR-G supports Ethernet protocol and operates within ...

SFP+ transceiver that supports 10G connections up to 300 m using multi-mode fiber with a duplex LC UPC connector.

100% MSA UNCODED SFP+ TRANSCEIVER:
Designed, programmed and tested to work with compatible MSA Compliant switches and routers to deliver reliable 10GbE connectivity

Compatibility in your network is everything, and this SFP+ Transceiver Module delivers. It has been designed, programmed and tested to work with HP / HPE-compatible switches and routers.

Widely used in network switch, server, or NIC with SFP+ to a 10 Gigabit fiber ...

NETGEAR ProSafe 10 Gigabit SFP+ transceivers fit into select managed switch SFP+ interfaces, providing hot-swappable installation and removal. Select Smart switches and Plus switches will also ...

Widely used in network switch, server, or NIC with SFP+ to a 10 Gigabit fiber channel network with multimode LC for Network Attached Storage (NAS), Storage Area Network (SAN), and High ...
