

First Cable Tray Factory

Overview

Cope is the original brand of cable tray. In 1948, Thomas Jefferson Cope developed the first modular cable tray system and introduced it to the electrical industry. Used extensively across residential, commercial, and industrial projects worldwide, including key markets like Dubai, metal cable trays have become. Cable tray manufacturing involves creating trays that are designed to hold, support, and protect electrical cables in various environments. Cable trays are crucial for organizing cables, keeping them safe from physical damage, and ensuring their proper functioning over time.

First Cable Tray Factory

The important considerations for cable trays are their resistance to fire, the potential for ignition and propagation of cable fire between adjacent trays. This is related to the cable materials, the layout of ...

Throughout our manufacturing process, we uphold rigorous quality control measures to guarantee the durability, strength, and reliability of our cable tray systems.

Cable trays are used as an alternative to open wiring or electrical conduit systems, and are commonly used for cable management in commercial and industrial construction.

Chalfant Ladder Cable Tray Systems are ideal for indoor and outdoor cable management. They provide reliability, ease of installation, and cost savings both initially and long term.

Don't worry; this guide covers everything you need to know about the manufacturing process, types of cable trays, and why they are important for any electrical installation.

Cope is the original brand of cable tray. In 1948, Thomas Jefferson Cope developed the first modular cable tray system and introduced it to the electrical industry. Today, the Cope brand is part of Atkore ...

Discover the history of metal cable trays, from Saul Halpern's 1940s invention to their modern role in efficient, safe cable management for residential, commercial, and industrial use.

Fabricated in numerous styles (wiremesh, ladder, ventilated trough, channel, and solid-bottom) and sizes, cable tray provides the greatest versatility among cable support systems, while offering ...

We offer modern, innovative, and technically advanced cable trays, tray covers and wire management accessories, support, and logistics management with an emphasis on customer service.

Cable tray manufacturing is an intricate process involving the design, production and distribution of systems specifically designed to support and manage electrical cables.
