

Four-core fiber-to-electrical switch

Four-core fiber-to-electrical switch

Our fiber optical switches offer several control options - remote control, control via button switch or both. The signal passes through the switch optically, without any electrical conversion.

In this work, we present an all-fiber architecture for a high-speed core-selective switch, crucial for efficient signal distribution in multicore networks.

This TCP/IP unmanaged switch has 100BASE-FX ports for fibre optic and four 10BASE-T/100BASE-TX ports for copper cable. It is a network switch with a supply voltage of 24V and a ...

With 4 computers (e.g., A, B, C, and D) on 4 switch ports, any pair (e.g. A and B) can transfer data back and forth, while the other pair (e.g. C and D) also do so simultaneously, and the two conversations ...

Up to 120km : Fiber transceiver provides multiple Gigabit SFP optical ports and 10/100/1000M adaptive RJ45 network ports, users can choose different SFP optical modules ...

Choose from our selection of fiber optic ethernet switches, including DIN-rail mount ethernet switches, light duty ethernet switches, and more. Same and Next Day Delivery.

Our ESW-2206 optical fiber switch has 2 Fiber Optic SFP Module ports and 4 X 10/100/1000 Base-TX copper RJ-45. Works Best with Fibertronics Cat6 6 or Cat 5e ethernet patch cables.

Supporting distances up to 80km, the TC3705 10/100Base-T Ethernet Fiber Optic Switch provides one multimode or single mode optical port and four Ethernet ports.

Shop DigiKey's large in-stock selection of Fiber Optic Switches, Multiplexers, Demultiplexers. View inventory, pricing and order now for same day shipping!

We offer solutions that provide seamless transmission and conversion from Ethernet media to multimode or singlemode fiber. Our Ethernet network switches with fiber ports comes in managed or ...
