

# German CIF Price Wall-Mounted Distribution Box 8 Cores

## Overview

Ideal for FTTx projects requiring centralized fiber management, including splicing, patching, and integration of cassette splitters. Suitable for both indoor (telecom rooms, basements) and outdoor (exterior walls, utility poles) installations, protected against dust and water per IP55. The 8 port Fiber Distribution Box is sturdy in structure, lightweight in size, and easy to install. This distribution box can connect. Standard wall mount enclosures from Multilink deliver distribution and connectivity solutions for network providers. 8-Core Optical Distribution Box's Windowed Design for Easy Fiber Maintenance The 8-core fiber distribution box features a windowed design, suitable for installers performing fiber maintenance without removing the entire box cover. It offers the functions of mechanical/fusion splicing, splitting, termination and cable distribution. This wall mounted fiber enclosure supports.
