

Greek Co-packaged Optics 25G

Co-packaged optics (CPO) is a design approach that integrates the optical engine and switching silicon onto the same substrate without requiring the signals to traverse the PCB.

SFP28 modules provide high-performance network connectivity in a compact form factor. With data transmission speeds of up to 25 Gbps, these modules are ideal for demanding environments such as ...

All Juniper 25G optics are compliant with key industry standards and specifications for seamless interoperability in multivendor environments and qualified for use across ACX, EX, MX, and QFX ...

25G SFP+ LR Lite The MTRA-3E11A is a high performance, cost effective modules, which is supporting Multi Rate 9.83~25.78Gbps, and transmission distance up to 300m on SM fiber.
