

Gulf Region Data Center EMS 100kW Solution

Gulf Region Data Center EMS 100kW Solution

Gas turbines provide the instant backup power that data centers require for 99.999% uptime guarantees—a technical constraint that extends ...

Regional developers are adopting innovative cooling systems such as adiabatic-free cooling chillers and exploring full-scale cooling in a new facility to optimise energy usage and ...

Our team of highly experienced personnel has a proven track record with over 500 data centers in the region. We specialize in mission critical facility development, turnkey delivery and performance ...

Whether a data center needs grid connection, on-site power generation, grid stability solutions, or support utility and IPP operations, it has a comprehensive portfolio of products and services to meet ...

All you need to know about data centres in the Gulf, including where they are, how many more are planned and the biggest players involved

Emirati operator Khazna Data Centers has announced plans for a 100MW data center in Ajman, UAE. In a recent LinkedIn post, the company said the AI-optimized facility will be the largest ...

The data center will serve the greater demands of enterprises and cloud service providers in Thailand and overseas, in line with the rapid growth of digital infrastructure in the region. The data center is ...

Neom expects the facility to be entirely powered by renewable energy, providing a fully integrated, end-to-end data centre solution. The project will utilise advanced cooling technologies ...

Gas turbines provide the instant backup power that data centers require for 99.999% uptime guarantees—a technical constraint that extends UAE's fossil fuel dependency through 2035.

A 100-kilowatt solar mini-grid has been commissioned at Kanabea Rural Health Centre in Gulf Province, delivering round-the-clock electricity to one of the country's most isolated communities ...

Moro Hub (UAE): Developed by Digital DEWA, this 100 MW data center is the world's largest fully solar-powered facility. Located within Dubai's Mohammed bin Rashid Solar Park, it's ...
