

HS Code for Optical Cable Sheathing

Overview

The HS Code 85447000 specifically classifies optical fiber cables made up of individually sheathed fibers, making it easier for importers, exporters, and customs officials to accurately identify and track the movement of these products. These cables are widely used in telecommunications and data transmission systems to transmit information via light signals. The HS-Codenumbers or contents may have changed. Search in the current year Can be used for an export declaration. This is in response to your letter of June 18, 1999, requesting the issuance of a ruling on the tariff classification of “tight buffered” and “loose tube” optical fiber cables, under the Harmonized Tariff Schedule of the United States (HTSUS). Your letter was referred to this office for reply. It is used for direct connection to FTTx. 2001 HQ 962322 - Optical Fiber Cable, Individually sheathed fibers. 2001 HQ 963256 - Optical.

HS Code for Optical Cable Sheathing

You can also find customs duty rates applicable for importing of "optical fibre cables made up of individually sheathed fibres" into the USA and the European Union Countries.
