

# **High-precision CIF price for New Zealand's exported solar-powered communication systems**

## **Overview**

This tariff finder is designed to help goods exporters and importers maximise benefits from New Zealand's Free Trade Agreements (FTAs) and compare tariffs in more than 110 other international markets. The terms of trade measures the changing volume of goods imports that can be funded by a fixed volume of exports. Explore it! Monthly, quarterly and yearly trade data. Import & export values, volumes, growth rates, market shares, etc. Trade Map provides - in the form of tables, graphs and maps - indicators on export performance, international demand. ANZ Commodity Price Index is a monthly report that tracks the movement in the prices received for New Zealand's main export categories, in both world prices and New Zealand dollars. Merchandise import values and indexes use New Zealand dollar VFD values (the value of imports before insurance and freight costs are added). They will introduce and provide background to research findings by MFAT staff.
