

# How much does a direct-buried fiber optic cable cost

## Overview

Benchmarks from industry research (deployment cost basis, not contractor sell price): The median cost (labor+materials) to deploy fiber underground is about \$18.55/ft for aerial, and labor is the major driver (often 60-80% of cost). Value Our direct burial fiber optic cables combine premium construction with affordability, offering some of the best value in the industry. Using advanced cable-reeling machines, we cut your cable to the exact length you require, minimizing waste and saving you money. The installation type you choose and the layout of your property determine the total labor and materials needed for your project. You should account for permit. Market talk (contractor pricing): Many trenchless contractors publicly quote ~\$15-\$50 per foot for straightforward fiber bores, with outliers from \$10 up to \$100 per foot depending on conditions and scope. Free Shipping with \$189 Order. 30-Day Return Warranty Technical Support Live Chat.
