

How much does a pigtail channel cost in Vietnam

Overview

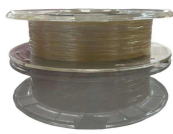

For 2026, structural steel prices in Vietnam range from 15,000 to 22,000 VND per kilogram (approximately 620 to 910 USD per ton), depending on grade, section type, and quantity. Common grades include SS400, Q345B, and S355JR, each suited for different load-bearing requirements. With steel building costs in Vietnam being 7-15% lower than in neighboring countries like China and Thailand, the country has become a preferred destination for industrial and commercial construction projects. This comprehensive guide examines every factor influencing steel structure pricing in. Unless otherwise stated, costs reflected in this cost report are current as at 4th Quarter 2024. This version of the DLS Construction Cost Report for 2024-Q4, like future periodic cost reports, focuses on the construction cost profile in Vietnam. This article provides practical cost estimates in USD with low, average, and high ranges. Assumptions: region, specs, labor hours.
