

# How to pay for fiber optic cables

## Overview

Owners and buyers often pay for fiber optic cable by the meter, plus labor, connectors, and installation. The main cost drivers include material type, run length, trenching or aerial work, and any required permits or inspections. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. Homeowners typically pay a broad range for running fiber optic cable from the street to a residence, with the main cost drivers being trenching or aerial installations, cable material, labor time, and permit requirements. The price also varies by fiber type (GPON vs. You should account for permit.
