

Huawei 5800 Gigabit Optical Module

Huawei 5800 Gigabit Optical Module

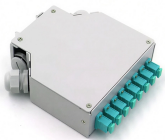

The 1 U box-shaped OLT MA5801 and outdoor compact OLT MA5801s are applicable to all-optical access coverage in low-density areas. The SmartAX MA5800 can meet operator demands for a ...

As the latest distributed intelligent OLT platform developed by Huawei to help operators solve the challenges brought by Gigabit access, the MA5800 uses the same distributed architecture ...

For operators, the MA5800 can provide superior 4K/8K/VR video ...

Buy Huawei OLT MA5800-X17/X15/X7/X2, next-generation OLT for FTTx networks. Supports GPON/10G GPON, tested quality, fast delivery, bulk orders available.

The MA5800 multi-service access device is a 4K/8K/VR-ready OLT in the gigabit ultra-broadband era. It supports the PON/10G PON/50G PON/GE/10GE shared platform.

The MA5800 supports the PON combo technology, and can work with the built-in WDM1r optical module to support smooth evolution from GPON to XG(S)-PON.

Huawei's SmartAX MA5800 multi-service access module employs a distributed architecture, supporting ultra-broadband, Fixed Mobile Convergence (FMC) services, and smart capabilities such as SDN ...

For operators, the MA5800 can provide superior 4K/8K/VR video services, support massive physical connections for smart homes and all-optical campuses, and offers a unified way to connect home ...

With a focus on sustainability, the Huawei OptiXaccess MA5800 series features an eco-friendly and energy-saving design. The platform automatically detects module usage and traffic load, optimizing ...

Multi-service virtualization platform: Easy to maintain and space-saving. A physical OLT is virtualized into multiple OLTs; each virtual OLT can be independently configured and managed to isolate ...

Huawei's SmartAX MA5800 multiple-service access module employs a distributed architecture to support ultra-broadband, Fixed Mobile Convergence (FMC) services, and smart capabilities, such as ...
