

Huijue Huawei optical module compatibility

Overview

Huawei S series devices support optical modules of the following encapsulation types: CFP, QSFP+, QSFP28, XFP, SFP, eSFP, and SFP+. All optical modules are hot swappable. eSFP: enhanced small. During certification of optical modules for Huawei switches, Huawei completes comprehensive functionality verification to ensure quality of optical modules. The verified items include optical module plug/unplug, transmit optical power, receive optical power, signal transmission quality, data. NOTICE ● A switch must use optical or copper modules that have been certified for use on Huawei S switches. Huawei is not liable for any problem caused by the use of non-certified. As data centers are evolving towards higher speeds such as 100G or 200G, 10G/40G optical modules are still prevalent because many scenarios only require 10G or 40G. In today's fiercely competitive environment, people's demands for quality are increasing. All or part of the products, services and features described in this document may not be within the purchase scope or the usage scope.

Huijue Huawei optical module compatibility

When using switches, we may encounter many confusions, such as what types of optical modules are needed for different models of Huawei switches, and how to resolve issues encountered ...

Before shipping, the products undergo strict testing to ensure the compatibility and performance of the optical modules. Today, we will share with you the verification and optical module ...

Huawei provides a full series of pluggable optical modules. A wide variety of modules give you flexible plug-and-play options for all types of interfaces.

The verified items include optical module plug/unplug, transmit optical power, receive optical power, signal transmission quality, data reading, error tolerance, compatibility, electromagnetic compatibility ...

Are Optical Modules of Huawei Switches Interchangeable with Optical Modules of Other Manufacturers? No. Huawei switches must use Huawei-certified switch optical modules.

To determine whether optical modules delivered for Huawei switches before July 1, 2013 are certified ones, contact Huawei technical support. If your optical modules are delivered after July 1, 2013, use ...

To determine whether optical modules delivered for Huawei S switches before July 1, 2013 are certified ones, contact Huawei technical support. If your optical modules are delivered after July 1, 2013, use ...

Huawei S series devices support optical modules of the following encapsulation types: CFP, QSFP+, QSFP28, XFP, SFP, eSFP, and SFP+. All optical modules are hot swappable.

Are Optical Modules of Huawei Switches Interchangeable with Optical Modules of Other Manufacturers? No. Huawei S switches must use Huawei-certified S switch optical modules.

When many customers purchase optical module products, they will worry about one question: can your module be compatible with XXX switch?
