

Industrial-grade outdoor switches

Industrial-grade outdoor switches

The industrial switch's 4KV power port surge protection and 2KV network port surge protection can adapt to harsh outdoor environments and ensure the reliability of the uninterrupted network system.

Using a Lantronix outdoor PoE switches or an industrial ethernet switch, such as in an electrically noisy environments like factory floors, allows the use of fiber optic cables for backbone connections, which ...

FS Industrial Ethernet Switches with robust design for harsh industrial and outdoor environments subject to vibrations, shocks and extreme temperature fluctuations from -40°C to 75°C generally.

Finish harsh industrial deployments by applying Fastcabling's outdoor PoE switches. Build reliable PoE network system over fiber optic link with IP67 waterproof and rugged designs.

Industrial-grade Ethernet Switches are specifically designed to connect devices in network environments that are subject to extreme operating temperatures of -40°C to 75°C, vibrations, and shocks.

Built to endure the demanding conditions of factories, transportation infrastructure, grid substations, and other harsh environments, Cisco Industrial Ethernet switches come in a wide range of form factors to ...

Antaira offers a variety of industrial Ethernet switches, including industrial-grade network switches, DIN mount switches, and Ethernet switchboards, that can perform efficiently in adverse weather ...

With their strong build, the whole family of DIS industrial switches are certified against vibration, shock and free-fall. We're so confident in the quality of their hardened build that they come with our D-Link ...

It is a powerful and easy-to-deploy solution for most industrial environment, such as manufacturing, transportation, electricity, oil & gas, chemistry, video surveillance and other various industry ...

Featuring remote reboot, power, i.e., PoE, and other network management functions, Inscape Data's innovative 2, 4, and 8 port Gigabit PoE switch systems greatly reduce the challenges and overhead ...
