

Inquire about 1G fiber optic enterprise router

Overview

G1 is an enterprise-level router specially designed by Tenda for small and medium-sized enterprises. The device offers built-in behavior management and intelligent bandwidth management. In addition, it is also featured with multi-protocol VPN, multi-WAN overlay and many other. As Gigabit Ethernet continues to serve as the foundation of enterprise networks, data centers, campus infrastructures, and industrial communication systems, 1G SFP modules remain one of the most widely deployed and cost-effective optical transceiver solutions. Despite the rapid adoption of 10G. Cisco Services can help you build the right solution for your needs with the combined power of AI, automation, and human expertise. Cisco has the infrastructure to power AI, unmatched breadth and scale of data to feed it, and a portfolio optimized to secure it. 1 multi-gigabit cable modem with 2.5 Gbps Ethernet port, approved for Cox, Xfinity, Spectrum & others. 5G SFP MODULE solutions deliver exceptional reliability and cost-effectiveness for campus networks and branch interconnections, flawlessly supporting transmission distances up to 120km. Optimized for core data center. Dual-Core CPU provides 1Gbps Forwarding performance. In addition, it is also featured with multi-protocol VPN.
