

Integrated Container Cold Aisle IK10 Manufacturer

Overview

Adaptable to hot and cold aisle containment, the Vertiv Aisle Containment system allows you to deploy containment before or after racks are installed to simplify installation and speed deployment of new data center equipment. A factory-installed full perimeter compression gasket seals the door frame and minimizes air leakage. Ergonomic angled handles reduce pinch points. The multiwall panel adheres to NFPA. Certain categories of Vertiv products can be purchased through an online reseller. Need help choosing a product?

Speak with a highly qualified Vertiv Specialist who will help guide you to the solution that is right for you. similar to RAL 7035 Protection Class Up to IP 66/DIN EN 60529, depending on the model Impact protection IK 10 acc. to IEC. Rittal's new aisle containment line solves these problems with a modular, standards-based design that integrates easily with existing racks, cabling, HVAC, and safety systems.

Integrated Container Cold Aisle IK10 Manufacturer
