

Is the dismantling of fiber optic cables valuable

Overview

Several factors determine the value of salvaged fibre optic cables. High-quality glass fibres and metal elements, such as copper and aluminium, fetch better prices. These cables, originally installed to support communication networks, become obsolete due to technological advancements. " Fiber is glass + plastics + strength members, and it often shows up on bulky spools—so it needs the right route, not a random scrap bin. In this guide, you'll learn what fiber cable actually is, what's inside, how to prep scrap and. Scrap fiber optic cable is typically purchased by companies or individuals involved in the recycling or scrap metal industry. We are. Have you ever stopped to think about what happens to old fiber optic cables when they're replaced?
