

Liquid-cooled switch 1G OEM

Liquid-cooled switch 1G OEM

The Q3450-LD liquid-cooling system features two parallel cooling loops operating concurrently. Liquid enters via two separate inlet ports and exits through two outlet ports.

Celestica's ES1500 is a 1U 8/24/48-port 2.5GbE campus access switch that provides up to 48x 2500Base-T and 4x 25GbE SFP28 ports with optional PoE++. It is ideal for organizations looking for ...

It is the most efficient data center server/switch high-speed interconnection solution. GrowsFiber's immersion cooling optical transceivers are widely used in data centers adopting liquid-cooling heat ...

Ruijie Network has launched two commercial immersion liquid cooled switches, namely 32-port 100G data center access switch and 48-port 1G management network switch.

Take steps now to modernize your facility and thermal management strategies for tomorrow's liquid-cooled switches. Meet with your Cisco team or partner to discuss how to design, ...

The DynaNET 100G-01 is liquid cooled and has no vents nor moving parts, dramatically increasing reliability. Since it does not require any ventilation, the DynaNET 100G-01 is extremely compact and ...

Access cost-effective, quality-checked next-gen switches, compatible coded oem transceivers, oem cables, and advanced end-user and production coding solutions.

Through our partners, we offer rack and stack solutions for turnkey liquid-cooled deployments, including properly installed manifolds—pumps and heat exchangers as a right sized and efficient solution.
