

Luxshare Precedents Entering the Optical Module Market

Overview

Luxshare-Tech unveiled a portfolio of optical and copper interconnect solutions at OFC 2025, including 1.6T and 800G transceivers, advanced DACs, and PCIe Gen7-ready interconnects aimed at enabling scalable, low-latency, and high-throughput networking infrastructure. TORONTO, ONTARIO, August 1, 2024 - POET Technologies Inc. ("POET" or the "Company") (TSX Venture: PTK; NASDAQ: POET), the designer and developer of the POET Optical Interposer™, Photonic Integrated Circuits (PICs) and light sources for the data center, tele-communication and AI markets, today. POET Technologies, a designer of Photonic Integrated Circuits (PICs) and light sources for the data center, has expanded its partnership with Luxshare Technology to provide more optical module products targeted at AI network equipment and AI service providers. Both companies are developing a variety of high speed solutions to help satisfy demand for 800Gbps and higher. POET Technologies Inc. says it has expanded its partnership with Luxshare Technology Co.

Luxshare Precedents Entering the Optical Module Market
