

# **Manufacturers of Miniature Plug-in PLC Optical Splitters**

## Manufacturers of Miniature Plug-in PLC Optical Splitters

We provides whole series of 1xN and 2xN splitter products that are tailored for specific applications. All products meet GR-1209-CORE-2001 and GR-1221-CORE-1999 requirements.

What Is a PLC Splitter? A PLC (Planar Lightwave Circuit) splitter is a high-precision passive optical component used to split one optical signal into multiple outputs in FTTH, GPON, and EPON ...

As the leading manufacturer in the industry, we offer top-of-the-line Cassette PLC Splitters and Mini PLC Splitters that are guaranteed to exceed your expectations. Shop now and experience the highest ...

This optical splitter use Planer Lightwave Circuit (PLC) technology for split ratio 2, 4, 8, 16, 32 and 64. The Optical Splitter is designed for Mini splitter type by standard of YD/T2000-2009, YD/T1117-2001.

Precision Micro-optics provides 1xN and 2xN series of splitters. Three packaging types are available fan-out PLC splitter, module PLC splitter, or rack mount PLC splitter shown below.

Mini Plug-in module Type PLC Splitter family has 1×2, 1×4, 1×8, 1×16, 1×32, 2×2, 2×4, 2×8, 2×16, 2×32 PLC splitter, with specifications that are tailored for different applications and markets.

FSP-PLC-M Mini Type PLC Splitter is an integrated waveguide optical power distribution device based on quartz substrate. It has the characteristics of small size, wide working wavelength range, high ...

Flyin Optronics provides whole series of 1×N and 2×N splitter products that are tailored for specific applications. All products meet GR-1209-CORE and GR-1221-CORE requirements.

Corning's QuickPath™ PLC optical splitters reduce insertion loss and deliver high performance. These devices enable more effective monitoring and management of optical networks. They are available ...

JPT delivers precision fiber optic splitters with low insertion loss, excellent uniformity, and high reliability.

## Contact Us
