

# **Monaco DAC High-Speed Cable 200G**

## Monaco DAC High-Speed Cable 200G

This 200g dac cable meets high-density and high-bandwidth transmission requirements, simplifying network deployment and reducing overall costs. The 200g dac features stable performance and low ...

200G DAC Cables from JTOPTICS are Direct Attach Copper cables ideal for short-distance, cost-effective connectivity in top-of-rack or intra-rack applications. These cables provide low-latency, high ...

Supporting 200 Gbps over 4x50G PAM4 lanes, these passive twinax cables deliver ultra-low latency, near-zero power consumption, and a cost-effective alternative ...

Supporting 200 Gbps over 4x50G PAM4 lanes, these passive twinax cables deliver ultra-low latency, near-zero power consumption, and a cost-effective alternative to optical modules.

These third-party manufactured cables are programmed and tested to work seamlessly as replacements for original vendor 200G QSFP56 DACs. Ideal for servers, switches, data centers, and high ...

Cost-effective 200G QSFP56 DAC cables with low power and low latency. Ideal for short-distance InfiniBand connections.

It provides a QSFP56-to-QSFP56 copper direct-attach solution. 200G QSFP56 DAC cables are suitable for very short links and offer a cost-effective way to establish a 200-Gigabit link between QSFP-200G ...

The GIGALIGHT 200G QSFP56 pluggable direct attach copper (DAC) cable is available in both Active Copper Cables (ACC) and Passive Copper Cables (PCC) supports 200G Ethernet and InfiniBand ...

The QSFP56 direct-attach passive copper cable contains eight high-speed copper pairs, each operating at data rates of up to 50Gb/s with PAM4 modulation. It is compliant with SFF-8665, and supports an ...

Siemon's 200G High Speed Cable Assemblies are offered in DACs (Direct Attach Copper Cables), ACCs (Active Copper Cables), AEC (Active Electrical Cables), and AOCs (Active Optical Cables).
