

Nordic fiber-reinforced spiral wound tubing 1000mm deep

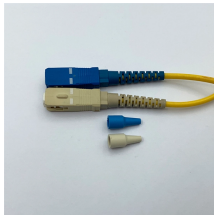

Nordic fiber-reinforced spiral wound tubing 1000mm deep

AS9100 and ISO 9001:2015 certified manufacturer specializing in tube fabrications, tube bending and weldments for use in aerospace, military, high-performance, and medium to heavy duty ...

We produce helically wound tubes as semi-finished product for the production of storage tanks or chemical apparatus. Different wall thicknesses could be produced according to your demands.

NordiTube Technologies, established since 1987, is a leading technology provider for trenchless pipe rehabilitation and has been producing CIPP liners for more than 30 years.

The spiral wound technique consists of pairing a series of tapes coated with adhesive and rolling them up in a spiral around a spindle to achieve the tubing. They can be supplied both heat shrinkable and ...

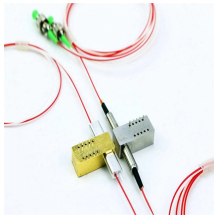

Middle Layer - Fiber Reinforcement: Seamless circular-woven layer that provides high resistance to internal pressure. Inner Layer - Coating: Polyethylene, thermoplastic polyurethane or other ...

Choose from our selection of spiral tubing, including spiral sleeving, chemical-resistant spiral sleeving, and more. Same and Next Day Delivery.

With a stainless-steel, spiral-wound, reinforcing wire within the tube wall and bonded 15mm connectors, these tubes are designed to reduce kinks and disconnects.

International Dielectric Products, Inc. specializes in the manufacture of a high quality, diverse range of spirally wound tubing products widely used in industrial and electrical insulation applications.

Electrolock can provide large continuous length tubing in rolls that are either Layflat or spiral wound constructions. These can be easily incorporated into your automated production equipment to save ...
