

Offshore DAC high-speed cable 1 6T

Offshore DAC high-speed cable 1 6T

1.6T OSFP passive copper cable assembly feature sixteen differential copper pairs, providing eight data transmission channels at speeds up to 200Gbps per channel, and meets 1.6T ...

Volex's OSFP 1600 cable is designed to meet the next-gen data center needs. With unique foam dielectric construction, Volex OSFP 1600 cable offers smallest cable outer diameter and bend radius ...

1.6T direct-attached copper cables provide up to 1600Gbps aggregate throughput and can be applied in liquid cooling environments. Integrated with a heat sink and airflow channels, enhancing the cooling ...

200G to 1.6T DAC cables enable scalable, low latency copper links for data center networking with QSFP DD and OSFP breakout support.

Cost-effective 1.6T OSFP224 cables with low power and low latency. Ideal for short-distance InfiniBand connections.

It is suitable for high-speed interconnection scenarios between 1.6T switches and 800G SuperNICs. It provides cost-efficient connectivity for short-distance interconnects and enables higher port ...

FS 800G/1.6T DAC/AOC cables are compliant with MSA and IEEE standards for guaranteed compatibility and optimal performance and suitable for servers, switches, storage, etc. Purchase from ...

As next-gen data centers deploy faster speed in a tighter space, they need high performance cables that reduce power consumption, provide reliable operation and are low cost. Volex's 1.6T OSFP-XD cable ...

The PHILISUN 1.6T OSFP (FIN) to OSFP (FIN) is a new-generation 8-channel high-speed cable supporting 1600 Gbps, optimized for 224 Gbps PAM4 and compliant with IEEE 802.3 standards ...

These ultra-high-speed DAC cables from FS are compatible with Ethernet and InfiniBand systems, delivering seamless upgrades for enterprises looking to boost their InfiniBand XDR network ...
