

## Optical Power Meter Calibration in New Zealand

### Overview

Mobile Test 'n' Cal brings professional calibration services directly to your site, anywhere in New Zealand. PAT testers, multimeters, torque wrenches, pressure gauges & more. MSL is New Zealand's national metrology institute (NMIs). Every step of an instrument's calibration chain contributes to overall measurement. Calibration and measurement services began in NZ using internationally recognised procedures and quality management systems. The laboratory achieved ISO9002 certification from QAS Standards Australia. Our team of experienced engineers and technicians offers a unique, single-source solution across New Zealand. Our services include: Flexible Locations Pick. In our fully IANZ accredited, ISO 17025 - certified testing laboratories, we test, calibrate and refurbish electromechanical and smart meters, personal protective equipment (PPE), and precision instruments used throughout the electricity industry.
