Price of Optical Cable Splice Test Report

Overview

Basic — 1 splice, simple access: Labor $300, Materials $120, Testing $80; Total around $520. Fiber optic splicing costs vary widely depending on project size, location, fiber type, and site conditions. The "per splice" rate is the most. I usually bill T&M, but it works out to about $175-250 for setup/teardown per site and $4-7 per fiber for prep in a new tray in an existing case and splicing depending on if it's flooded or dry cable. Add another $50-75 to prep a new case endspan or $100-150 for a new case midspan with overcut on. The Network Installers engineers and installs commercial fiber optic cabling for businesses and government agencies across the United States. 864F Prysmian non-armored ribbon cable (24 Fibers per ribbon) into existing empty. Includes fusion/splice, testing, and basic materials. An Optical Power Meter and Laser Light Source will be used to measure power loss on each completed ring or distribution span to verify continuity between fibers (no fibers incorrectly spliced.
