

Price of auxiliary materials inside the distribution box

Overview

The material component, the distribution box itself, generally ranges from \$50 to \$400. Plastic and fiberglass boxes are the most budget-friendly options. Durable concrete boxes are more costly but offer greater resistance to floating in high groundwater conditions and erosion. Key cost drivers include panel amperage, indoor vs outdoor location, wiring length, and whether a full panel upgrade or rerouting is needed. The article outlines cost ranges, per-unit pricing, and practical.
