

Price of upgrading a distribution box to a low-voltage distribution box

Overview

Summary: distribution box replacement typically runs from about \$1,000 to \$5,000. Most homes fall in the \$1,500–\$3,000 range for standard upgrades; complex upgrades or high-end panels can push totals higher. Always factor permit costs and potential town-specific requirements. Typical cost ranges for replacing a distribution box or service panel in the United States vary widely based on panel size, amperage, labor, and whether a full service upgrade is needed. The main drivers are panel capacity, existing wiring condition, permit requirements, and whether any upgrade is needed. Buyers typically pay for a full panel replacement, including labor, materials, and permits. This article outlines the cost factors, price ranges, and practical budgeting advice for a U.S. upgrade. Hourly Rates: Licensed electricians currently charge between \$50 and \$150 per hour, depending on regional demand and experience.
