

Relay Protection Soft Pressure Plate

Relay Protection Soft Pressure Plate

The invention can conveniently and accurately complete the on-line monitoring of the function soft pressure plate state of the relay protection device, improve the efficiency of the...

Relay protective covers and enclosures fit over open-style relays to enclose live circuits and protect against accidental contact. Note: Product availability is real-time basis and adjusted continuously. ...

Especially suitable for monitoring safe edges and pressure-sensitive mats.

The Multilin 8 Series platform of relays provide advanced management, protection and control for transformer, generator, motor and feeder protection applications.

Littlefuse relays protect equipment and control power distribution. Our industrial products include ground-fault, time delay, and intrinsically safe relays.

Pressure-sensitive mats connect to safety relays, providing reliable area monitoring, compliance, and operator protection in machine guarding.
