Add Cable Tray Fittings As you draw cable tray, Revit automatically adds fittings. Use the following procedure to manually add cable tray fittings to an existing segment or run.

Review the basics of placing cable tray, add vertical cable tray, and place cable tray and fittings horizontally on a wall. We are also modifying cable tray fittings to work in tight spaces.

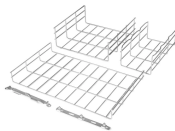

Make sure the split cable tray is removed. You can now nudge the individual cable trays and fittings into place and change the length using temporary dimensions.
