

Russian fiber optic KVM terminal

Overview

The VE883R is a fiber-based receiver designed to extend uncompressed 4K signal up to 300 m (using VE883RK1) or 10 km (using VE883RK2) over duplex fiber optic cables. USB True 4K DisplayPort/HDMI Optical KVM Extender (True 4K @ 10 km) Extends transmission of True 4K video, KVM and control signals over a single fiber optic cable up to 10 km. Matrox KVM extenders can extend signals—such as keyboard, mouse, audio, video, RS232, and USB—over fiber, copper, LAN, or private WAN. PC connection cables are included with this product making it a solution that is ready right out. The 4KIP500F-KVM can transmit 4K ultra HD HDMI signals up to 550m (1800ft) over multi-mode optical fiber with zero latency. This eliminates the space requirements for large equipment, allowing.

Russian fiber optic KVM terminal

Featuring HDMI connector, the KFH188S delivers FHD video, keyboard, mouse, USB 2.0, audio, and RS232 signals with a single pair of KVM transmitter and receiver units—over LAN, WAN, or ...

Matrox Extio 2 is a fiber-optic point-to-point KVM extender, designed for 24/7 critical applications and multi-monitor remote workspaces, Matrox Extio 2 Series KVM extenders deliver up to quad ...

With the capability to support up to 16 pairs of transmitter (TX) and receiver (RX) devices via a single Gigabit Ethernet switch, this fiber optic KVM extender offers seamless scalability and integration ...

Our KVM extenders are certified by CE and RoHs. Kinan offers single or multi-mode fiber optical connections for a seamless transmission from the source. For OEM/ODM services, we can ...

Thinklogical is producer of fiber optic solutions on transfer of KVM and video of signals on long distances, matrix KVM switches, KVM-over-IP of extenders and extenders for signal transmission ...

Extend a monitor, keyboard, and mouse away from a computer with no loss of signal using fiber optic cable - HDMI USB, DisplayPort USB, VGA USB.

DVI-7360 - DVI-Gear - HDMI Fiber Optic Extender, 4K (UHD) up to 4096x2160 /30p The DVI-7360 is a high-speed, HDCP compliant fiber optic transport system capable of distributing high resolution ...

The CE990 is a USB DisplayPort/HDMI Optical KVM Extender that extends KVM signals over fiber-optic transmission up to 10 km, delivering True 4K, HDCP 2.3-compliant video quality.

With the capability to support up to 16 pairs of transmitter (TX) and ...

To avoid bulky cable setup, the VE883R guarantees a simple and fast solution for optimum transmission of Ethernet, IR, HDMI, RS-232, and USB signals up to 10 km simply via a set of duplex optical fiber. ...

The KVX KVM Extender lets you control a server or computer over a single mode or multimode cable at distances of up to 30 km (depending on the SFP used, fiber type, and fiber bandwidth).
