

SC optical module single-mode single-core

SC optical module single-mode single-core

	<p>The transceivers are high-performance, cost-effective modules with a TTL data interface that supports a data rate of 10Mbps and a maximum 20km transmission distance over single mode fiber cable (SMF).</p>
-----------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<p>Optcore offers a wide range of SC SFP BiDi modules at a great price. These bidirectional modules can transmit and receive signals using WDM technology on a single fiber cable.</p>
-----------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<p>Compatible with optical fiber equipment from Huawei, ZTE, H3C, Cisco, TPLINK, Ruijie, Dell, HP, Intel, NETGEAR, Juniper, AMD and other brands. Small Form ...</p>
-------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<p>WHAT WE PROVIDE: One pair of 1.25G WDM SC SFP transceiver (1310nm/1550nm), three years free warranty and lifetime technology support. OEM/ODM service is available.</p>
-------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<p>SFP (miniGBIC) single strand Bi-Directional (BiDi) SC optical modules are equipped with a single SC optical connector. The capacity of SFP modules is 1.25G (Gigabit rate).</p>
-------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

This optical module offers a reliable and durable solution for professional installations. Designed for fiber optic technicians and demanding network environments.

About this item Network Transceivers 1PCS single-mode single-core optical fiber jumper ST-LC-FC-SC optical terminal transceiver switch module SC-SC pigtail carrier grade See more product details ...

S-35/53LC20D is a pair of SFP transceivers, the S-35LC20D is a 1.25G Single Mode optical SFP module with a LC connector, T1310nm/R1550nm, which works for connections up to 20km and ...

Using Tx 1310nm and Rx 1550nm wavelengths, this module enables efficient bi-directional communication on a single fiber. With an SC connector, installation is quick and hassle-free. The ...

SFP (miniGBIC) single strand Bi-Directional (BiDi) SC optical modules are ...

Compatible with optical fiber equipment from Huawei, ZTE, H3C, Cisco, TPLINK, Ruijie, Dell, HP, Intel, NETGEAR, Juniper, AMD and other brands. Small Form Factor Pluggable (SFP) transceivers are ...

A single mode SFP transceiver is a hot-swappable optical module designed to transmit and receive data over single mode fiber (SMF). It is commonly used in Ethernet and fiber optic networking equipment ...
