

Selling a 164 beam splitter

Overview

Use this beam splitters buying guide to compare major types, define selection criteria, and find suppliers: [Encyclopedia article: beam splitters](#) [Top-level product category: optical components and devices](#) Click on a logo to get to the details of that supplier's offer. Thorlabs offers a wide range of optical beamsplitters. Our plate beamsplitters have a coated front surface that determines the beam splitting ratio while the back surface is wedged and AR coated in order to minimize ghosting and interference effects. Splitters are method of splitting a single fiber optic transmission from a 100% input, into multiple fiber at a specific % of the signal, Splitters are a passive optical device. THIS PRODUCT HAS FREE SHIPPING! TKT-UNICAM-PFC - Corning UniCam Pretium. Knight Optical excels in providing custom optical beamsplitters that operate across various wavebands, including UV, visible, and IR spectra. Our list of suppliers for.

Selling a 164 beam splitter

Thorlabs offers a wide range of optical beamsplitters. Our plate beamsplitters have a coated front surface that determines the beam splitting ratio while the back surface is wedged and AR coated in ...

Explore our collection of optical cable splitters and PON splitters for sale. Optical beam splitters are used to split the fiber optic light evenly into several parts at specific ratios. Buy optical splitters and passive ...

Cube Beamsplitters Plate Beamsplitters Dichroic Beamsplitters Laser Beam Attenuators ©2025 Newport Corporation. All rights reserved.

Whether you require plate beamsplitters or cube beamsplitters, we can manufacture these to align perfectly with your spectral and dimensional needs. For diverse applications, we offer both polarising ...

Used Optical Beam Splitters available from Industrial-Stores. Beam splitters are optical devices that are used to split a beam of light. They are designed to reflect a percentage of the beams energy, while ...

Beam splitting cubes, also known as beam splitters, are optical devices used to split a beam of light into two separate beams. These cubes typically consist of two right-angled prisms that are cemented ...

Edmund Optics offers plate, cube, pellicle, polka dot, or specialty prism Beamsplitters in a variety of anti-reflection coatings or substrates. Standard Beamsplitters, which split incident light by a specified ratio ...

LightMachinery's range of beam splitters includes polarizing and dichroic. We make custom beam splitters to fit your unique specifications. Learn more!

Beam Splitters are used to split incident light into two separate beams at a specified ratio.

This beam splitters buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.
