

Singapore Communication Power Supply System Processing

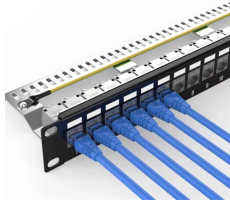

Overview

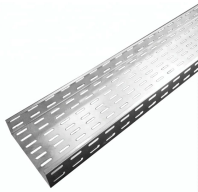

With the city-state's stringent standards and rigorous enforcement by authorities such as the Energy Market Authority (EMA), non-compliance can lead to costly project delays, legal penalties, and loss of client trust. Siemens Mobility ("SMPL") has been appointed by the Singapore Land Transport Authority ("LTA") to lead a consortium with Concord Corporation Pte Ltd for the design, supply, installation, testing, and commissioning of the power supply system for Singapore's eighth and newest Mass Rapid Transit. The Land Transport Authority (LTA) has awarded two contracts for the provision of four key systems – signalling system, platform screen doors (PSD) system, Integrated Supervisory Control System (ISCS) and communications system – for the Cross Island Line (CRL). The first contract, valued at. APECUS places a significant emphasis on delivering specialized services tailored for government sectors, constituting a pivotal component of our service portfolio. These specialized services encompass the design, development, and installation of fully integrated power solutions dedicated to serving. 3P Power Pte Ltd was established in April 2013 as a Power Solutions Provider of Services and Engineered Products of Battery Charger and AC UPS in Singapore with

Sales and Service Partners in ASEAN Countries. By applying our valued experiences and expertise, 3P Power provides the TIES (Total I. 1.
