

# **Single-mode fiber optic photoelectric conversion module**

## Single-mode fiber optic photoelectric conversion module

SFP transceiver that supports 1G connections up to 3 km using single-mode fiber with a simplex LC UPC connector.

1G single-mode works on the principle of photoelectric conversion. The Transmitter side converts the electrical signal into an optical signal, and after being transmitted through the optical ...

LoRa handheld portable base station

High-performance Single Mode Fiber Optical Transceiver Module with 25G speed, 40km range, and 1310nm wavelength. Reliable, cost-effective, and compatible with industry standards.

The Kramer SFP1-SM-D is a certified 1G SFP transceiver with a duplex LC (PC/UPC) connector and a peak transmission wavelength of 1310nm. The hot-pluggable module transmits signals at 1.25 Gb/s ...

What Is SFP-10G-LR-1310nm 20km LC DDM Optical Transceiver Module? SFP-10G-LR-1310nm 20km LC DDM Optical Transceiver Module CISCO, HUAWEI, H3C, Juniper, D-link, HP, IBM, dell, Mikrotik, ...

Discover high-performance single mode SFP modules for your network. Compatible with major brands like Cisco, Ubiquiti, and more.

Mouser offers inventory, pricing, & datasheets for Singlemode Fiber Optic Transmitters, Receivers, Transceivers.

Learn how to choose the right 1G SFP module for your network. Our guide covers compatibility, distance, fiber type, cost, and vendor selection for optimal performance.

Our 1 Gigabit Singlemode SFP Transceivers offer high-performance, reliable connectivity for singlemode fiber optic networks. These transceivers are engineered for long-distance applications, supporting ...

By converting electrical signals into optical signals in single-mode optical fiber transmission, it breaks the limitation of short cable distance, making Ethernet in the premise of ensuring high bandwidth ...
